"QECI 41ST FOUNDING ANNIVERSARY"

41st QECI FOUNDATION DAY, It was a special event for the entire school community because it marked another year of the institution's history and achievements.

First day of the event, I participated one of the event of 41st foundation day which is to joined the parade.

During the parade, I walked together with the other participants as we went around the designated route. Even though the weather was quite hot, the flow of the parade went well and everyone remained energetic and enthusiastic. Many students from different departments joined the parade, which made the event more lively and colorful. Each department proudly represented their programs and showed their unity and school spirit.

All the departments are all participated and joined the parade, Every department had its own chant or yell that they shouted while marching in the parade. These yells showed the pride and excitement of each group as they celebrated the school's founding anniversary. Hearing the different chants from each department created a fun and energetic atmosphere during the parade.

Despite the heat of the sun, the participants continued marching with enthusiasm. Students waved, shouted their chants, and supported their departments throughout the activity. The parade was organized and the participants followed the proper order, which helped the event run smoothly. It was enjoyable to see how everyone cooperated and participated actively in the celebration.

After the parade ended, we went to Balagtas where the other events for the foundation week were being held. Many activities and programs were prepared for the celebration, and students gathered to watch and participate in them. The foundation week events were exciting because they allowed students to showcase their talents, creativity, and teamwork. It was also a good opportunity for everyone to relax, enjoy, and celebrate together as one school community.

During the Foundation Day, I went to the Garden Campus to support my department in their volleyball game. Their opponent was the San Andres Section. The match was exciting, and many students were cheering for their teams. The game was very intense and enjoyable to watch. Both teams showed great teamwork, determination, and sportsmanship. Each player did their best to score points for their team. There were moments when the game became very close, which made the audience even more excited. Every time my department scored a point, we all cheered loudly to encourage them to continue playing well.

Both teams played well and showed great teamwork and determination. In the end, my department won the game, and I felt very happy and proud of them. Whether they win or lose, I will always continue to support my department in their games.

On March 4, the next game of their match was the semifinals, which was held at Balagtas. I went there to continue supporting my department. Their opponent in this game was the BSBA MM team. The match was very exciting because both teams played very well and showed great effort. However, my department was not able to win the game, so they were not able to advance to the finals. Even though they lost, I was still proud of them because they did their best.

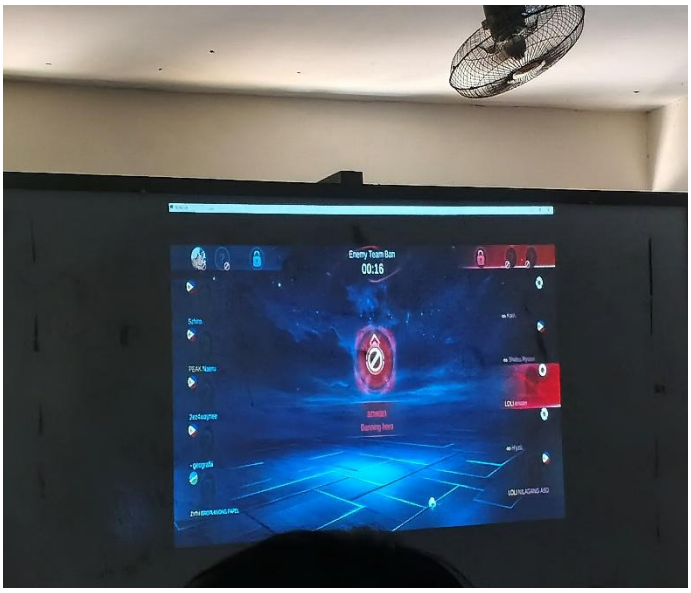

After the semifinals, they had another game to compete for third place. Fortunately, they won because the team they were supposed to play against was disqualified for not arriving on time. Because of this, my department finished in third place, and I was still happy and proud of them.

I watched the Mobile Legends tournament, which was one of the booths during the QECI event. Before I went to watch the game, I first asked permission from my OJT workplace, and they allowed me to go. I was happy because I was able to watch and support my friend who was one of the players in the tournament.

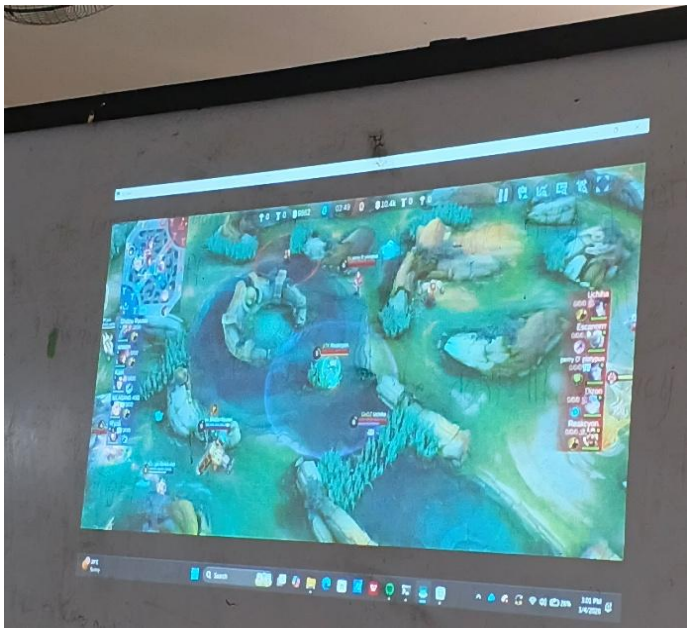

The game was very exciting and competitive. Many players showed great skills and teamwork during the match. The score between the teams was very close, which made the game even more thrilling to watch.

In the end, my friend's team won the tournament. I felt very happy and proud of them because they played very well and worked together as a team. It was truly a great game and a memorable experience to watch.

The next match was the semifinals, and the game followed a best-of-three format. The team that won two games would proceed to the finals. I continued to watch and support my friends during their match.

My friends were able to win the first game, which made everyone very excited and hopeful that they would advance to the finals. However, the opposing team made a strong comeback. Unfortunately, my friends lost the second and third games, which meant that they were not able to reach the finals.

Even though they did not win the match, it was still a great game to watch. Both teams showed great skills, teamwork, and determination throughout the series. I was still proud of my friends because they fought hard and gave their best effort during the match. For me, what matters most is that they tried their best and showed good sportsmanship while playing the game.

On the last day of the Foundation Day, March 7, 2026, I went to attend the Quezonians Night. The theme for our outfit was a denim shirt, so everyone wore their best denim outfits for the event. The students who were allowed to attend during that day were the 3rd year and 4th year students.

We were required to arrive at Balagtas at 6:00 PM, and the event lasted until 6:00 AM the next morning.

The program was very enjoyable, and everyone seemed to be having fun. For that night, students were able to relax and forget about their academic responsibilities for a while.

Everyone looked great because they really prepared their outfits for the theme. Many students dressed stylishly, and it was nice to see everyone enjoying the party, dancing, and spending time with their friends. Overall, the event was memorable and a great way to end the Foundation Day celebration.

During the Quezonians Night, one of the highlights of the event was the coronation of Mr. and Ms. QECI. Each candidate was prepared to show their own uniqueness, confidence, and competitiveness on stage. They presented themselves well and showed their talents, personality, and intelligence to the audience.

One of the most exciting parts of the coronation was the Question and Answer portion. All the candidates were very smart and confident when answering the questions.

They gave meaningful and thoughtful answers, which showed that they were not only good in appearance but also intelligent and capable.

Through this part of the event, the candidates were able to prove themselves and show that they truly deserved to be part of the competition. Everyone watching was impressed by their confidence, intelligence, and the way they carried themselves on stage. It made the coronation more exciting and memorable for everyone who attended the Quezonians Night.

Participating in the QECI 41st Founding Anniversary was a memorable experience for me during my OJT. It allowed me to take part in an important school event and witness the strong spirit of unity among the different departments. The celebration also reminded me that school activities like this are not only about entertainment but also about building relationships, teamwork, and pride in the institution.
